PROJECTS

Full-Stack Employee Management System | *React.js, Node.js, Express.js, MongoDB, JWT* Jan 2026

- Developed a full-stack employee management system with CRUD operations for creating, updating, viewing, and deleting employee records
- Implemented secure authentication and authorization using JSON Web Tokens (JWT) to protect application resources
- Implemented RESTful APIs using Node.js and Express.js with server-side validation and structured business logic
- Designed MongoDB schemas and integrated database operations for reliable and persistent employee data management
- Live Demo:** harshitems.vercel.app
- GitHub:** github.com/HarshitOnLoop/ems-uber

Personal Portfolio Website | *React.js, JavaScript, HTML5, CSS3, Vercel* Sep 2025

- Developed a responsive single-page portfolio website using React.js, JavaScript, HTML5, and CSS3
- Built reusable React components to create a modular, maintainable, and scalable frontend architecture
- Implemented responsive layouts and optimized frontend performance for a consistent user experience across devices
- Deployed and hosted the production application on Vercel with continuous deployment
- Live Demo:** harshitonloop.in
- GitHub:** github.com/HarshitOnLoop/portfolio
