

Tech Arch Softwares Pvt Ltd.

Location: - IT Park Panchkula

Job Title: Front-End Developer - Fresher

Role(s): Intern

Employment Type: Full-Time

Industry: IT / Software / Technology

Number of Positions: 3

Department: Software Development

Stipend: ₹15,000 per month

Job Summary

We are looking for enthusiastic and technically motivated **B.Tech freshers** to join our team as **Front-End Developers**.

The ideal candidate should have a strong interest in web development and a basic understanding of **HTML, CSS, JavaScript, responsive web design, and modern front-end technologies**.

This is an excellent opportunity for freshers to gain hands-on experience by working on real-world web development projects under the guidance of experienced professionals.

Key Responsibilities

- Develop and maintain responsive and user-friendly web interfaces.
- Convert UI/UX designs and requirements into functional web pages.
- Write clean, reusable, and maintainable front-end code.
- Work with **HTML, CSS, JavaScript**, and modern front-end technologies.
- Ensure websites are responsive across desktops, tablets, and mobile devices.
- Collaborate with designers, developers, and other internal teams.
- Identify and fix UI and front-end bugs.
- Optimize website performance, usability, and cross-browser compatibility.
- Integrate front-end applications with APIs and backend services.
- Participate in testing, debugging, and deployment activities.
- Stay updated with modern web development practices and technologies.

Required Skills

- Strong understanding of **HTML5, CSS3, and JavaScript**.
- Basic knowledge of responsive web design.
- Understanding of DOM and browser fundamentals.
- Basic knowledge of **Git/GitHub**.
- Familiarity with REST APIs is an advantage.
- Knowledge of **React.js / Angular / Vue.js** will be an added advantage.
- Good logical and problem-solving skills.
- Strong willingness to learn and adapt to new technologies.
- Good communication and teamwork skills.

Eligibility

- **B.Tech / B.E. graduates** from Computer Science, Information Technology, Software Engineering, or related technical fields.
- Freshers / candidates with **0-1 year of experience** can apply.
- Candidates should have a genuine interest in software and web development.
- Candidates with academic projects, personal projects, internships, or GitHub projects will have an added advantage.

Compensation & Career Growth

Initial 12 Months

₹15,000 monthly stipend.

During the initial 12-month period, candidates will receive practical exposure to real-world front-end development projects, coding practices, web technologies, APIs, Git, and software development workflows.

After 12 Months

Upon successful completion of the initial 12-month period, candidates may be offered a **₹3 LPA - ₹5 LPA package**, based on individual performance, technical skills, learning progress, project contribution, and company evaluation.

Why Join Us?

- Start your professional career in **Front-End Development**.
- Work on real-world web development projects.
- Gain hands-on experience with modern web technologies.
- Learn industry-standard development practices.
- Work with experienced developers and mentors.
- Build a strong professional portfolio.
- Opportunity for long-term career growth based on performance.

Preferred Candidate Profile

We are looking for candidates who are:

- Passionate about **Web Development and Software Engineering**.
- Curious and willing to learn new technologies.
- Strong in logical thinking and problem-solving.
- Comfortable working in a team environment.
- Interested in building responsive and user-friendly web applications.
- Willing to take ownership of assigned development tasks.
